## Consolidated Financial Results for the Fiscal Year Ended March 31, 2025 (Under Japanese GAAP)

Company name: SHIMADZU CORPORATION  
 Listing: Tokyo Stock Exchange  
 Securities code: 7701  
 URL: <https://www.shimadzu.co.jp>  
 Representative: Yasunori Yamamoto, President and Representative Director  
 Inquiries: Hiroshi Ogasawara, General Manager, Finance and Accounting Dept.  
 Telephone: +81-75-823-1128  
 Scheduled date of annual general meeting of shareholders: June 26, 2025  
 Scheduled date to commence dividend payments: June 27, 2025  
 Scheduled date to file annual securities report: June 25, 2025  
 Preparation of supplementary material on financial results: Yes  
 Holding of financial results briefing: Yes (for institutional investors and analysts)

(Yen amounts are rounded down to millions, unless otherwise noted.)

### 1. Consolidated financial results for the fiscal year ended March 31, 2025 (from April 1, 2024 to March 31, 2025)

#### (1) Consolidated operating results

(Percentages indicate year-on-year changes.)

	Net sales		Operating profit		Ordinary profit		Profit attributable to owners of parent	
Fiscal year ended	Millions of yen	%	Millions of yen	%	Millions of yen	%	Millions of yen	%
March 31, 2025	539,047	5.3	71,720	(1.4)	72,018	(6.3)	53,776	(5.7)
March 31, 2024	511,895	6.1	72,753	6.6	76,895	8.5	57,037	9.6

Note: Comprehensive income For the fiscal year ended March 31, 2025: ¥49,189 million [(42.4)%]  
 For the fiscal year ended March 31, 2024: ¥85,433 million [49.8%]

	Earnings per share	Diluted earnings per share	Return on equity	Ratio of ordinary profit to total assets	Ratio of operating profit to net sales
Fiscal year ended	Yen	Yen	%	%	%
March 31, 2025	183.55	—	10.9	10.7	13.3
March 31, 2024	193.54	—	12.5	11.9	14.2

#### (2) Consolidated financial position

	Total assets	Net assets	Equity-to-asset ratio	Net assets per share
As of	Millions of yen	Millions of yen	%	Yen
March 31, 2025	672,177	498,066	74.1	1,723.88
March 31, 2024	673,962	492,335	73.1	1,670.49

Reference: Equity  
 As of March 31, 2025: ¥498,059 million  
 As of March 31, 2024: ¥492,331 million

### (3) Consolidated cash flows

	Cash flows from operating activities	Cash flows from investing activities	Cash flows from financing activities	Cash and cash equivalents at end of period
Fiscal year ended	Millions of yen	Millions of yen	Millions of yen	Millions of yen
March 31, 2025	52,002	(23,173)	(48,409)	137,190
March 31, 2024	30,127	(15,998)	(21,098)	159,234

### 2. Cash dividends

	Annual dividends per share					Total cash dividends (Total)	Payout ratio (Consolidated)	Ratio of dividends to net assets (Consolidated)
	First quarter-end	Second quarter-end	Third quarter-end	Fiscal year-end	Total			
	Yen	Yen	Yen	Yen	Yen	Millions of yen	%	%
Fiscal year ended March 31, 2024	—	24.00	—	36.00	60.00	17,688	31.0	3.9
Fiscal year ended March 31, 2025	—	26.00	—	40.00	66.00	19,207	36.0	3.9
Fiscal year ending March 31, 2026 (Forecast)	—	26.00	—	40.00	66.00		42.4	

Note: For dividends, please refer to the “Notice Regarding Dividends of Surplus” announced today (May 12, 2025).

The year-end dividend for the fiscal year ended March 31, 2025 includes 4.00 yen as a commemorative dividend for the 150th founding anniversary.

### 3. Consolidated earnings forecast for the fiscal year ending March 31, 2026 (April 1, 2025 to March 31, 2026)

(Percentages indicate year-on-year changes.)

	Net sales		Operating profit		Ordinary profit		Profit attributable to owners of parent		Basic earnings per share
	Millions of yen	%	Millions of yen	%	Millions of yen	%	Millions of yen	%	Yen
Fiscal year ending March 31, 2026	515,000	(4.5)	58,000	(19.1)	58,000	(19.5)	45,000	(16.3)	155.75

Note: For matters related to the above forecast, please refer to page 6, “(1) Consolidated Overview <Consolidated Outlook>” in “1. Operating Results.”

**\* Notes**

(1) Significant changes in the scope of consolidation during the period: Yes

Newly included: 3 companies (Zef Scientific, Inc. and others)

Excluded: – companies (–)

Note: For details, please refer to page 23, “(5) Notes on Consolidated Financial Statements (Significant Changes in the Scope of Consolidation) in 3. Consolidated Financial Statements and Significant Notes Thereto.”

(2) Changes in accounting policies, changes in accounting estimates, and restatement

(i) Changes in accounting policies due to revisions to accounting standards and other regulations: Yes

(ii) Changes in accounting policies due to other reasons: None

(iii) Changes in accounting estimates: None

(iv) Restatement: None

Note: For details, please refer to page 20, “(5) Notes on Consolidated Financial Statements (Notes on Changes in Accounting Policies) in 3. Consolidated Financial Statements and Significant Notes Thereto.”

(3) Number of issued shares (common shares)

(i) Total number of issued shares at the end of the period (including treasury shares)

As of March 31, 2025	296,070,227 shares
As of March 31, 2024	296,070,227 shares

(ii) Number of treasury shares at the end of the period

As of March 31, 2025	7,152,271 shares
As of March 31, 2024	1,348,202 shares

(iii) Average number of shares outstanding during the period

Fiscal year ended March 31, 2025	292,984,873 shares
Fiscal year ended March 31, 2024	294,709,021 shares

**[Reference] Overview of non-consolidated financial results**

**Non-consolidated financial results for the fiscal year ended March 31, 2025 (from April 1, 2024 to March 31, 2025)**

**(1) Non-consolidated operating results**

(Percentages indicate year-on-year changes.)

	Net sales		Operating profit		Ordinary profit		Profit	
Fiscal year ended	Millions of yen	%	Millions of yen	%	Millions of yen	%	Millions of yen	%
March 31, 2025	250,715	3.5	33,650	(7.4)	49,047	(3.8)	40,977	(3.5)
March 31, 2024	242,144	(1.1)	36,321	(6.9)	51,010	1.0	42,465	4.7

	Earnings per share	Diluted earnings per share
Fiscal year ended	Yen	Yen
March 31, 2025	139.86	–
March 31, 2024	144.09	–

**(2) Non-consolidated financial position**

	Total assets	Net assets	Equity-to-asset ratio	Net assets per share
As of	Millions of yen	Millions of yen	%	Yen
March 31, 2025	398,599	287,574	72.1	995.35
March 31, 2024	403,245	292,508	72.5	992.49

Reference: Equity

As of March 31, 2025: ¥287,574 million

As of March 31, 2024: ¥292,508 million

\* Financial results reports are exempt from audit conducted by certified public accountants or an audit corporation.

\* Proper use of earnings forecasts, and other special matters

The above forecast was calculated based on information available on the date this report was released. Actual results may vary from forecast values, due to various factors in the future. For matters related to the above forecast, please refer to page 6, “(1) Consolidated Overview <Consolidated Outlook>” in “1. Operating Results.”

# 1. Operating Results

## (1) Consolidated Overview

### <Overview of FY 2024>

During FY 2024, the global economy remained uncertain due to geopolitical risks such as the Russian invasion of Ukraine and conflicts in the Middle East, the stagnation of the Chinese economy, the U.S. tariff policy, and the increase in costs caused by inflation.

Given such a business environment, the Shimadzu Group faced a difficult start to the year following the decline of the Chinese market in the previous year, but we worked in collaboration with partners around the world to solve challenges in society by implementing the business strategies defined in our Medium-Term Management Plan across the four focus domains of Healthcare, Green, Material, and Industry.

Specifically, under the strategy of Reinforce Key Model Business\*1, we worked to develop competitive new products for Analytical & Measuring Instruments through utilizing robotics and AI, and to enhance our product lineup with the aim of providing end-to-end solutions for our customers' entire workflows.

Under the strategy of Strengthen Med-Tech Business\*2, we worked to expand our lineup of mass spectrometer systems, reagents, and software for the clinical market in order to build a business foundation in that market. In addition, we are promoting "imaging transformation" using AI and IoT technologies for medical image analysis, and in April 2024, we launched an X-ray system equipped with an optical camera.

Under the strategy of Expand Overseas Business, we established an R&D center in North America in April 2024 with the aim of strengthening our development capabilities, and in China we opened a new plant in December 2024 to strengthen our manufacturing capabilities to support local production for local consumption.

Under the strategy of Reinforce & Expand Recurring Business\*3, we focused on strengthening and expanding our after-sales service business in North America by acquiring Zef Scientific, Inc., a North American analytical instrument maintenance and service company, in April 2024.

In addition, in seeking organizational change toward focusing on customers (domains), we transitioned to a Sales & Marketing Division-based organization from April 2024, strengthened collaboration between business divisions, and promoted sales activities such as providing optimal end-to-end solutions to customers, which also contributed to our growth.

- \*1. Key model business: Liquid chromatograph systems, mass spectrometer systems, gas chromatograph systems, testing machines, and turbomolecular pumps.
- \*2. Med-Tech business: Business that provides Total Solutions using medical imaging systems and systems analyzing blood and other components in health management, testing, diagnosis, treatment, and prognosis management.
- \*3. Recurring business: Business that supplies consumables such as reagents, culture media, and columns, as well as maintenance services for equipment.

Given the above, Shimadzu posted net sales of 539,047 million yen (a year-on-year increase of 5.3%), reflecting increases in Japan, North America, and other Asian countries, together with the tailwind of favorable exchange rates. This was a new record high. Meanwhile, operating profit was 71,720 million yen (a year-on-year decrease of 1.4%). Although we revised our prices, the impact of rising material costs, advancing growth investments including R&D and DX investment for the future, as well as increased investment in human resources, were not offset by the increased profit from higher sales. Ordinary profit was 72,018 million yen (a year-on-year decrease of 6.3%), and profit attributable to owners of parent was 53,776 million yen (a year-on-year decrease of 5.7%).

The results for reportable business segments were as follows.

From FY 2024, the results related to ferromagnetic object detectors/magnetometers and underwater optical wireless communication systems, previously included in Aircraft Equipment, have been

transferred to Industrial Machinery. In the year-on-year comparisons below, figures for the same period of the previous fiscal year have been restated to reflect the reorganized segments for comparison analysis.

### <Sales by Business Segment>

#### I. Analytical & Measuring Instruments

In the Analytical & Measuring Instruments segment, sales of liquid chromatograph systems and spectrometer systems for research and development as it expands globally in the pharmaceuticals market in the healthcare domain and for quality control, primarily in Asia, increased, as did sales of mass spectrometer systems for the Med-Tech clinical market. In addition, testing machines increased in the Green and Material domains based on the need to develop new materials and other needs.

By region, there was growth in the major regions, including Japan, North America, Europe, and other Asian countries.

As a result, the Analytical & Measuring Instruments segment posted net sales of 347,915 million yen (a year-on-year increase of 2.9%). Operating profit was 52,073 million (a year-on-year decrease of 9.4%) due to the impact of production suppression in the first half of the fiscal year, as well as advancing growth investments, including R&D investments, and advancing human resources investments.

Net sales broken down by major regions are indicated below.

		FY 2023 (millions of yen)	FY 2024 (millions of yen)	Percent Increase/ Decrease (%)	Overview
	Japan	127,179	131,029	3.0	Sales of liquid chromatograph systems, mass spectrometer systems, and spectrometer systems for pharmaceutical applications increased, as did sales of water quality measurement systems for water quality management. Sales of testing machines for new material development increased.
	Outside Japan	211,077	216,886	2.8	The overseas sales ratio was 62.3%, down 0.1 pt.
Major regions	North America	34,123	39,026	14.4	Sales of liquid chromatograph systems for a specific customer and sales of mass spectrometer systems for contract analysis companies increased. There was also a contribution from the results of Zef Scientific, Inc., which became a consolidated subsidiary operating multi-vendor services*.
	Europe	38,864	40,889	5.2	Sales of liquid chromatograph systems and mass spectrometer systems for clinical examination increased.
	China	74,746	67,779	(9.3)	Despite a recovery in demand from the government sector and academia driven by government economic support measures, the slow recovery of the private market has led to an overall decline in demand, including for liquid chromatograph systems.
	Other Asian countries	45,620	47,889	5.0	Sales of liquid chromatograph systems for pharmaceutical applications and contract analysis increased in India. In addition, demand for testing machines for quality control increased in Southeast Asia.

\* A form of service that provides repair and maintenance for all equipment in use by customers without selecting the manufacturer.

#### II. Medical Systems

As a core business in the Med-Tech sector, the Medical Systems segment has implemented an “imaging transformation” strategy using AI and IoT technologies for image analysis in order to extend healthy life expectancies and improve the work efficiency of medical professionals. Although there was a delay in market recovery in Japan, China, and Europe, sales of fluoroscopy systems increased in North America, amid improvement economic environment of hospitals, while sales of fluoroscopy systems and angiography systems increased in other Asian countries, which are showing rapid growth.

As a result, the Medical Systems segment posted net sales of 72,567 million yen (a year-on-year increase of 0.4%), with operating profit of 4,263 million yen (a year-on-year decrease of 10.8%) due to unfavorable product mix and other factors.

Net sales broken down by major regions are indicated below.

		FY 2023 (millions of yen)	FY 2024 (millions of yen)	Percent Increase/ Decrease (%)	Overview
	Japan	34,373	33,957	(1.2)	Although sales of PET systems for head and breast examinations and real-time tumor-tracking systems for radiation therapy equipment increased, sales of X-ray systems decreased due to a delay in market recovery.
	Outside Japan	37,929	38,609	1.8	The overseas sales ratio was 53.2%, up 0.7 pt.
Major regions	North America	10,619	12,134	14.3	Amid improvement economic environment of hospitals, sales of fluoroscopy systems and angiography systems increased.
	Europe	4,785	4,113	(14.0)	Although sales of fluoroscopy systems increased in Eastern Europe, sales decreased due to the absence of the large-volume projects for mobile X-ray systems from the previous year and a delay in market recovery.
	China	5,685	3,941	(30.7)	Sales of fluoroscopy systems and radiography systems decreased due to the impact of delay in market recovery and delays in tendering projects resulting from the strengthening of anti-corruption measures.
	Other Asian countries	7,279	8,668	19.1	Sales of fluoroscopy systems and angiography systems increased in Southeast Asia. In addition, sales of angiography systems increased in India.

### III. Industrial Machinery

In the Industrial Machinery as mainstay businesses in the Industrial domain, there was a decrease in sales in China of turbomolecular pumps for use in thin-film manufacturing equipment for producing solar cells and other applications. On the other hand, sales of turbomolecular pumps for semiconductor manufacturing equipment increased in Japan, North America, and other Asian countries driven by expanding semiconductor demand. Although sales of industrial furnaces for automotive ceramic manufacturing increased in China, sales of hydraulic equipment decreased due to a delayed market recovery.

As a result, the Industrial Machinery segment posted net sales of 72,335 million yen (a year-on-year increase of 9.4%), and operating profit of 10,467 million yen (a year-on-year increase of 41.6%) due to the increase in net sales, each reaching a new record high.

Net sales broken down by major regions are indicated below.

		FY 2023 (millions of yen)	FY 2024 (millions of yen)	Percent Increase/ Decrease (%)	Overview
	Japan	27,126	31,472	16.0	Sales of turbomolecular pumps for use in semiconductor manufacturing equipment expanded, both in products and services. There was also an increase in sales of industrial furnaces for the manufacture of advanced carbon products.
	Outside Japan	38,983	40,863	4.8	The overseas sales ratio was 56.5%, down 2.5 pt.
Major regions	North America	8,548	8,797	2.9	Sales of turbomolecular pumps for use in semiconductor manufacturing equipment increased, both in products and services.
	Europe	4,679	4,225	(9.7)	Although sales of turbomolecular pump services for semiconductor manufacturing equipment grew, sales of turbomolecular pump products for semiconductor manufacturing equipment and for solar cell thin-film manufacturing equipment decreased.
	China	19,343	19,560	1.1	The decrease in sales of turbomolecular pumps for thin-film manufacturing equipment for solar cells, in which investment was concentrated the previous year, was offset by an increase in sales of industrial furnaces for automotive ceramic manufacturing.
	Other Asian countries	6,100	8,123	33.2	Sales of turbomolecular pumps for use in semiconductor manufacturing equipment expanded, both in products and services. Sales of glass winder for use in glass fiber applications for producing electronic circuit boards increased in Taiwan.

#### IV. Aircraft Equipment

In the Aircraft Equipment segment, sales for the defense field increased, driven by a government policy of reinforcement of defense capabilities in Japan. Sales outside Japan decreased due to a reactionary decline in spare parts following an increase in the previous year, although sales of equipment for commercial aircraft were steady.

As a result, the Aircraft Equipment segment posted net sales of 38,662 million yen (a year-on-year increase of 34.5%), and operating profit of 6,068 million yen (a year-on-year increase of 73.4%) due to the increase in net sales and profitability improvement.

Net sales broken down by major regions are indicated below.

		FY 2023 (millions of yen)	FY 2024 (millions of yen)	Percent Increase/ Decrease (%)	Overview
	Japan	20,431	30,544	49.5	In the defense field, sales of aircraft equipment increased due to a government policy of reinforcement of defense capabilities.
	Outside Japan	8,305	8,117	(2.3)	The overseas sales ratio was 21.0%, down 7.9 pt.
	Major regions North America	7,312	7,415	1.4	Sales of equipment for commercial aircraft showed a solid increase.

#### V. Other

Other business segments posted net sales of 7,566 million yen (a year-on-year increase of 16.6%) and operating profit of 630 million yen (a year-on-year decrease of 39.6%).

## &lt;Consolidated Outlook&gt;

The global economy in FY 2025 is expected to remain uncertain due to intensifying U.S.-China trade friction and the resulting strengthening of tariff policies and preferential treatment for domestically produced goods in the U.S., in addition to continuing geopolitical risks, such as the unstable situations in Eastern Europe and the Middle East. The domestic economy is also forecast to remain unstable due to the impact of U.S. tariffs and exchange rate volatility. Therefore, maintaining and expanding our business while fully taking account of these changes in the situation is an important management issue that must be addressed. We recognize that, in addition to social issues such as climate change, sustainable supply of food and energy, and aging populations and growing health consciousness around the world, dealing with technological innovation and digitalization brought on by the spread of evolving AI technology, as well as addressing human rights issues, are also important challenges.

We see these challenges as business opportunities, and we are now in the final year of promoting our Medium-Term Management Plan under the vision of “pursuing the well-being of mankind and the Earth (planetary health).” On this basis, we will continue to build a development, production, and sales system based on local production for local consumption that is not impacted by trade friction or U.S. tariff policies. In addition, we will continue to improve our management and factories by introducing information systems and AI technology, and to provide simpler and more sophisticated data by incorporating AI technology into our products and systems. Furthermore, we have positioned enhancement of the governance to support these efforts as an important management issue, and will continue to work to thoroughly implement group management rules and expand corporate functions.

More specifically, we will promote the following five initiatives based on our Medium-Term Management Plan.

## 1) Initiatives for each business in the 4 Social Value Creation Domains

We will continue to strengthen our relationships with our global partners, and as an Innovative Company that Solves Social Issues, we aim to co-create a sustainable society.

## (i) Healthcare domain

In the Life Science field, we will position liquid chromatograph systems and mass spectrometer systems as priority models in Analytical & Measuring Instruments, mainly in the pharmaceutical and food markets. We will pursue the realization of analytical transformation (AX) through the use of AI to support improved efficiency and labor saving for customers. We will also expand our solutions offering, for example, through entering the bioprocess chromatography system market.

In the Med-Tech field, we will focus on the Analytical & Measuring Instruments and Medical Systems segments and continue to expand our business by strengthening the provision and implementation of clinical sample testing solutions and continuing to develop our “Imaging Transformation (IMX)” strategy, which utilizes AI and IoT technologies for diagnostic imaging. Furthermore, in order to contribute to the realization of healthy longevity and geriatric healthcare, we will collaborate with partners on research and development related to Alzheimer’s disease and infectious diseases, and will promote the global expansion of angiography systems equipped with our proprietary voice recognition functionality and fluoroscopy equipment for swallowing tests for the elderly.

## (ii) Green domain

In order to realize a carbon-neutral society, we will promote the development of analytical & measuring instruments, such as gas chromatograph systems, in the fields of development of new energy sources, including the social implementation of hydrogen energy, development of biofuel analysis methods, and measurement of greenhouse gases (GHG). In the environmental field, we will strengthen our efforts to popularize analytical methods for per- and polyfluoroalkyl substances (PFAS), which are subject to increasingly tight regulation worldwide, and we will focus on developing solutions in the biomanufacturing business.

## (iii) Material domain

We will work to strengthen our lineup of analytical & measuring Instruments, promote automation and enhance complex measurement and analysis using informatics, contribute to the development and manufacturing of innovative materials such as ceramic composite materials, and promote development of analytical & measuring instruments for the realization of the circular economy. In addition, by expanding our activities through our newly launched scanning electron microscope business, we will provide high added-value solutions in nano-scale surface observation.

## (iv) Industry domain

With a focus on industrial machinery, we aim to be a “globally recognized solutions provider” in the semiconductor market, which continues to be active due to growing demand for generative AI, and in the industrial machinery market, including electric vehicles in connection with climate change measures. In addition to strengthening our manufacturing and service structures for turbomolecular pumps, which are indispensable for semiconductor manufacturing, we will work to provide new value by expanding the applications for our products to include analytical and measuring instruments, solar panel manufacturing equipment, and glass coating equipment. We will also work to grow our sales of industrial furnaces for manufacturing ceramic products used in the electrification of automobiles and other applications.

In the aircraft equipment business, we aim to contribute to the realization of a “safe mobility society” and establish a business structure that can ensure growth and profit over the medium- to long-term. We will continue to operate our business according to our basic policies of “selecting and focusing businesses” and “improving profitability.”

## 2) Expand Recurring Business

We are working to expand recurring business through both consumables such as reagents and services. We will expand our business by enhancing our groupwide lineup of reagents and consumables, for example, through Shimadzu Chemistry and Diagnostics SAS, which was established on April 1, 2025 following the integration of two French subsidiaries, and Shimadzu Diagnostics Corporation.

In addition, we will expand multi-vendor services in Analytical & Measuring Instruments and strengthen the service structure of our North American medical business, providing a broad-based range of services that are closely matched to our customers.

## 3) Create new businesses and strengthen development capabilities

We will continue our activities in the SHIMADZU Future Collaboratory Challenge, an open research program to promote collaboration with startups, universities, and other partners, as well as the Shimadzu Future Innovation Fund, a corporate venture capital fund that aims to create new businesses through investments in startups.

In addition, to strengthen our development capabilities, we will continue to work on expanding the application of agile development and introducing concurrent development utilizing our global development bases, as well as promoting the development of digital talent for the use of AI and DX.

- 4) Strengthen the management foundation and transform the organization to a “customer-centric” orientation
- (i) In North America, expand our provision of solutions through local development by capturing cutting-edge needs through our lab at our Boston R&D center, which opened in FY 2024.
  - (ii) In China, produce analytical and measuring systems and other products at our expanded Suzhou plant, strengthening our ability to respond to preferential treatment for domestically produced goods.
  - (iii) In India, establish an integrated company to handle analytical and measuring instruments and medical systems, and develop a customer-focused sales approach. Also proceed with construction of a new plant, scheduled to commence operation in 2027.
  - (iv) Continue to make strategic growth investments to strengthen our ability to develop and propose solutions in the four domains of social value creation. At the same time, drive operational efficiency through leveraging AI and strive to improve capital efficiency with ROIC as a metric.
  - (v) Expand our next-generation leader development program to nurture human resources with diverse perspectives who can achieve results on a global stage.

## 5) Environmental Management and Health Management

In environmental management, we are working to contribute to the environment through our business with initiatives such as reducing CO2 emissions from product design and reviewing the materials that we use for packaging in order to build a decarbonized society and transition to a circular economy. We are also promoting information disclosure to enhance our corporate value and working to improve external evaluation.

In health management, we will work to improve the health of our employees and their families through the use of in-house technologies, and we are also promoting the use of occupational safety and health management systems. In addition, we will also work to give back our technology and expertise to society as a member of the Health & Productivity Management Alliance.

Although we will promote business activities as described above, Shimadzu’s business environment is one of increasing uncertainty due to the impacts of the yen’s appreciation and the U.S. tariff policy. The expected impacts of tariffs in the United States are a decline in demand associated with a macroeconomic slowdown and an increase in tariff costs. We have made the following consolidated earnings forecast for the fiscal year ending March 31, 2026, assuming that the tariff policy impacts will continue for one year. An increase in tariffs is expected to have a substantial impact on earnings; however, we will work to mitigate this impact by capturing demand in growth markets such as India in addition to implementing measures such as passing cost increases on to pricing and addressing our supply chains. In addition, we will continue to monitor trends going forward, as they are currently difficult to forecast.

(Millions of yen)

	FY 2025 Consolidated Earnings Forecast	Year-on-Year Percent Increase/ Decrease
Net sales	515,000	(4.5)%
Operating Profit	58,000	(19.1)%
Ordinary Profit	58,000	(19.5)%
Profit Attributable to Owners of Parent	45,000	(16.3)%

Note: The forecasted results above were calculated based on information available on the date this report was released. Actual results may vary from forecast values, due to various factors in the future.

## (2) Overview of Financial Status

<Assets as of March 31, 2025>

As of March 31, 2025, intangible assets increased by 5,730 million yen, retirement benefit assets increased by 4,930 million yen, notes and accounts receivable - trade, and contract assets increased by 4,318 million yen, and inventories increased by 1,583 million yen compared to the end of the previous

year, while cash and deposits decreased by 21,870 million yen. Consequently, total assets decreased by 1,785 million yen to 672,177 million yen. Net assets increased by 5,731 million yen to 498,066 million yen, reflecting decreases of 25,004 million yen due to acquisition of treasury shares, 3,386 million yen in foreign currency translation adjustment, and 3,045 million yen in valuation difference on available-for-sale securities, but an increase of 35,317 million yen in retained earnings.

#### <Cash Flows>

Cash and cash equivalents as of March 31, 2025 decreased by 22,043 million yen, compared to the end of the previous year, to 137,190 million yen.

The cash flow status for FY 2024 is described below.

#### I. Cash Flows from Operating Activities

Cash flow from operating activities resulted in an inflow of 52,002 million yen, which is a 21,874 million yen increase from the previous year. The primary cash flows include a 14,895 million yen increase from changes in trade payables, a 4,713 million yen decrease in income taxes paid, and a 2,964 million yen increase from changes in inventories.

#### II. Cash Flows from Investing Activities

Cash flow from investing activities resulted in an outflow of 23,173 million yen, which is a 7,174 million yen increase from the previous year. The primary cash flows include a 15,102 million yen outflow from capital equipment investment and a 6,546 million yen outflow from purchase of shares of subsidiaries.

#### III. Cash Flows from Financing Activities

Cash flow from financing activities resulted in an outflow of 48,409 million yen, which is a 27,310 million yen increase from the previous year. The primary cash flows include a 25,004 million yen outflow from an increase in treasury shares and an 18,250 million yen outflow from dividend payments.

#### <Trend in Cash Flow Indices>

	Year ended March 31, 2021	Year ended March 31, 2022	Year ended March 31, 2023	Year ended March 31, 2024	Year ended March 31, 2025
Equity Ratio (%)	67.4	68.0	68.4	73.1	74.1
Equity Ratio on a Market Value Basis (%)	237.2	222.6	197.1	185.0	160.3
Years of Debt Redemption (years)	0.0	0.0	0.0	0.1	0.0
Interest Coverage Ratio (times)	353.3	336.3	171.7	102.6	198.4

Note: Equity Ratio = (Net assets – Non-controlling interests)/Total assets

Equity Ratio on a Market Value Basis (%) = Total market value of shares/Total assets

Years of Debt Redemption = Interest-bearing debt/Cash flow from operating activities

Interest Coverage Ratio = Cash flow from operating activities/Interest payment

1. All indices were calculated on a consolidated basis.
2. The total market value of shares was calculated as the product of year-end share price and the number of year-end outstanding shares (after deduction of treasury stock).
3. The cash flow from operating activities indicated on the consolidated statements of cash flows was used as the cash flow from operating activities. Interest-bearing debt includes short-term loans and long-term debt, from liabilities indicated on the consolidated balance sheet. Interest payment indicates the interest paid, as reported in consolidated statements of cash flows.

**(3) Dividend Policy and Dividends for the Fiscal Year Ended March 31, 2025 and the Fiscal Year Ending March 31, 2026**

Shimadzu views the return of profits to shareholders as a key management objective, and our basic policy is to maintain a dividend payout ratio of 30% or more and to provide continuous shareholder returns while taking into account earnings performance and cash flow. In addition, internal reserves will be used to ensure financial soundness for sustainable growth, while also focusing on investments for growth in the social value creation domain and the reinforcement of human resources, development, manufacturing, and DX-related platforms.

A year-end dividend of 36 yen per share was paid for the fiscal year ended March 31, 2024, but we plan to pay a year-end dividend of 40 yen per share, an increase of 4 yen, for the fiscal year ended March 31, 2025, comprising the ordinary dividend of 36 yen per share with an additional commemorative dividend for the 150th founding anniversary of 4 yen per share. Combined with the interim dividend of 26 yen per share, that will result in a total annual dividend of 66 yen per share, which is an increase of 6 yen compared to the previous year.

For the fiscal year ending March 31, 2026, we currently plan to pay an interim dividend of 26 yen and a year-end dividend of 40 yen per share, for a total annual dividend of 66 yen per share.

## **2. Basic Stance on Selecting Accounting Standards**

The Shimadzu Group currently presents its consolidated financial statements based on Japanese accounting standards to facilitate comparison with results from other years and comparison with the results of other companies.

Regarding International Financial Reporting Standards (IFRS), we will take appropriate measures based on various circumstances in and outside Japan.

**(5) Notes on Consolidated Financial Statements****Notes on Going-Concern Assumptions**

Not applicable.

**Notes on Changes in Accounting Policies**

(Application of “Accounting Standard for Current Income Taxes” and other relevant ASBJ regulations)

The Company has applied the “Accounting Standard for Current Income Taxes” (Accounting Standards Board of Japan (ASBJ) Statement No. 27, October 28, 2022; the “Revised Accounting Standard of 2022”) and other relevant ASBJ regulations from the beginning of the fiscal year ended March 31, 2025.

Revisions to categories for recording current income taxes (taxation on other comprehensive income) conform to the transitional treatment in the proviso of paragraph 20-3 of the Revised Accounting Standard of 2022 and the transitional treatment in the proviso of paragraph 65-2 (2) of the “Guidance on Accounting Standard for Tax Effect Accounting” (ASBJ Guidance No. 28, October 28, 2022; the “Guidance on the Revised Accounting Standard of 2022”). There is no effect on the consolidated financial statements from this change in accounting policy.

With regard to the revision related to review of treatment in the consolidated financial statements of when deferring tax on gains or losses on sale arising from the sale of shares of a subsidiary between consolidated companies, the Revised Accounting Standard of 2022 has been adopted from the beginning of the fiscal year ended March 31, 2025. This change in accounting policy has been applied retrospectively to the consolidated financial statements for the previous fiscal year. There is no effect on the consolidated financial statements from this change in accounting policy.

**Notes on Segment Information, Etc.**
