

MobileDaRt Evolution MX8 Version v type introduced at AHRA2022

On July 11th, 2022, SHIMADZU officially announced the release of MobileDaRt Evolution MX8 Version v type. Shimadzu Medical Systems USA showcased the v type at AHRA2022 in Arizona, USA (AHRA: American Healthcare Radiology Administrators). The v type expands our lineup of the Digital Radiographic (DR) Mobile X-ray System.

New lineup of MobileDaRt Evolution MX8 Version

MobileDaRt Evolution MX8 Version v type

Newly added “v type” is a new model in the MobileDaRt Evolution MX8 Version series. In addition to the excellent basic features of the MobileDaRt Evolution MX8 Version main unit, such as the collapsible column and intuitive maneuverability, the FPDs for the “v type” system offer exceptional durability and great portability.

Check v type features!

Report from AHRA2022

Shimadzu Medical Systems USA showcased MobileDaRt Evolution MX8 Version v type at AHRA2022 in Arizona, USA. The v type got good feedback like, "The user interface of v type is intuitive and easy to understand, so I can get used to operating it soon." The eye-catching corner of the booth was designed thoroughly to ensure the “Evolutionary Modernity” features. The key attraction was our continuous efforts to enhance the DR product lineup.
